Professional Experiences

Nissan Digital India LLP Sep/2022 - Feb/2024, *Software Engineer*

- Involved in the development of programming user interface design and front-end for the web application using HTML, CSS, Javascript, React and Redux as requirements.
- Successfully contributed to the development and maintenance of DigiRAP (Digital Resource Allocation Planning)
- Backend API Generation and Report Generation.
- Maintained internal taxation portal, serving as a one-stop solution for tax controversy across global teams.
- Developed robust REST API using Express.js and Node.js, ensuring efficient and secure communication between the frontend and backend systems.
- Utilized EXCELJS library to develop comprehensive and visually appealing Excel reports.
- Leveraged knowledge- Java, JavaScript, Node.js, Express.js, React.js, Springboot, SQL Server, My SQL, Postgres SQL
- Developing and implementing responsive user interface components using React concepts and Reusable libraries.
- Involved in writing application-level code to interact with APIs, Web service using AJAX and JSON.
- Followed agile and scrum methodology for the development of the product.
- Implemented Selenium, Cucumber, and Java automation tests to improve software quality and reliability.
- Extensively used Git for version controlling and regularly pushed the code.

Projects

Sales-Insight-Dashboard : (ReactJS NodeJS)

This interactive dashboard helps analyze sales data. Made React components.

- Frontend :**
 - Users can filter data by month and sort product details.
 - Visualized sales trends with bar and pie charts using Chart.js.
- Backend :**
 - Fetches sales data from an API as JSON using asynchronous programming.
 - Managed server-side logic and data communication.

Employee-Management-System: (AngularJS Typescript)

Employee Management web application. User can check employee list. Manage employees add remove and check their status.

- Angular components , routing , OOPS , SPA, . Form validation , Bootstrapping.
- Typescript for programming and develop required business logic.

Certification | Internship

Geekster | Geekster Coding Bootcamp

- Solved 400+ DSA/Coding questions on geekster platform
- Participated in various Coding contests organized by the platform.
- Technical Stack Learned : **HTML, CSS, JavaScript, ReactJS, Bootstrap, Tailwind CSS, SQL and Java**

Skills

- Computer Language** : Java , HTML , CSS , JavaScript, Typescript
- Frameworks / Libraries** : ReactJS, AngularJS, NodeJS, Spring Boot and Selenium
- Additional Courses** : Data Structure and Algorithms
- Tools & Technologies** : GIT, VS code, Postman

Education

2022	B.Tech (CSE)	SIEM , MAKUT University	8.58
